

## Margay Race Karts

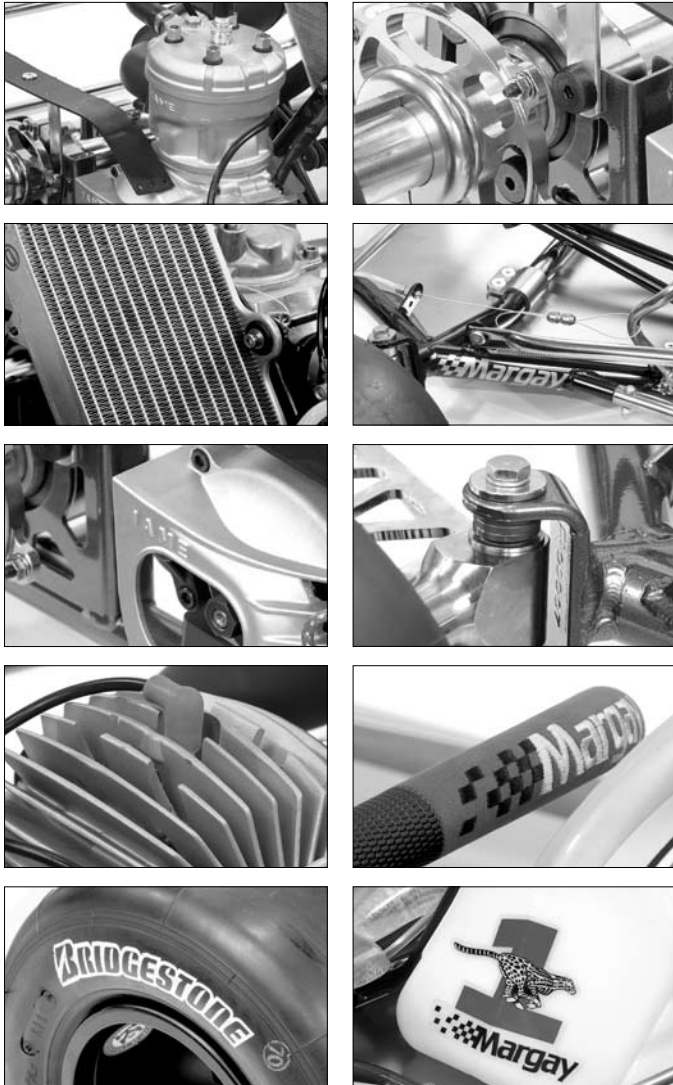

### Why Margay?

Margay, now in its 45th year and 3rd generation, is the most experienced manufacturer of racing karts in the USA. Margay karts are designed and built in the United States specifically for U.S. kart tracks and for the various classes currently competing in the U.S. You won't find a better kart out of the box or on the track, whether it's a TaG (Touch and Go) package, traditional Yamaha kart, or a Briggs kart. Year in and year out, Margay's winning record speaks for itself. Margay has won the prestigious WKA Manufacturer's Cup Championship 6 years in a row. In fact, Margay has claimed 13 WKA Championships since the mid 1990's! The key to Margay's long-term success in the evolving U.S. karting market is this: Margay lives here, designs here, builds here, races here and wins here. Pegasus has teamed up with Margay to add our unmatched customer service to the equation, making Margay a truly unbeatable choice!

Brava 1.9 Kart with Leopard Engine Package shown.

With Margay you'll find quality in every detail.

### It's your choice: Rolling Chassis or Complete Package

The Brava chassis is available in a number of configurations, either as a roller or as a complete package with your choice of engine and drivetrain.

**Rollers** feature a multiple alloy steel tubular frame with removable front and rear torsion bars and adjustable caster, camber, and front ride height. Rollers are supplied complete with Douglas wheels, Bridgestone tires, CIK bodywork, Tillett seat, removable fuel tank and Alcantra suede covered steering wheel.

**Complete packages** for TaG (Touch and Go) classes also include engine with electric start, battery, clutch, air box, exhaust, radiator, and water pump.

### Brava Rookie Kart

Developed just for Junior Sportsman (age 9-12) classes, the Brava Rookie features all of the tricks found on its big brothers yet is scaled to fit smaller drivers in lower horsepower applications. A proven winner with 2-cycle or 4-cycle engine packages, the Brava Rookie is the best choice for the young racer in your family. Includes 3 liter fuel tank.

**Brava Rookie Kart, Rolling Chassis**

Part No. 9600-R1 ..... \$3,195.00

**Rookie Kart with IAME 60cc Gazelle Engine Package**

Part No. 9601-R1-Gazelle ..... \$4,699.00

*Aimed at the TaG (Touch and Go) Junior series driver, ages 9 to 12. This package includes the IAME Gazelle 60cc air-cooled 2-cycle engine with electric start, battery, clutch, and all other accessories.*

### Brava 1.9 Kart

Developed for Junior and Senior applications, The Margay Brava is the chassis of choice for top sprint karters nationwide. TaG Expert World Champion, WKA Junior National Champion and every class in between, this versatile chassis is a proven and consistent winner in a variety of applications. This kart has led the way for Margay as they captured the World Karting Association's Manufacturers Cup Championship for 6 straight years. In addition to the standard items listed above, the roller includes removable front stabilizer bar, rear torsion bar, side rail and an 8 liter removable fuel tank.

**Brava 1.9 Kart, Rolling Chassis**

Part No. 9600-1.9 ..... \$3,795.00

**Brava 1.9 Kart with Leopard Junior or Senior Engine**

Part No. 9601-1.9-Leopard Jr or Sr ..... \$5,399.00

*Popular with the TaG Junior (ages 12-15) or Senior (ages 16 and up) series, this package includes the IAME Leopard 125cc water-cooled 2-cycle engine with electric start, battery, clutch, and all other accessories.*

### Brava 1.9 "Limo" Kart

Similar to the Brava 1.9, the Brava 1.9L is equally versatile yet developed specifically for drivers over 5' 11" tall or 190 pounds. The "Limo" designation refers to the 2 inch stretch applied to the pedal position of a normal Brava 1.9 frame. The wheelbase remains the same as the standard 1.9, yet the "snout" is extended to better accommodate taller drivers. To further fine tune the chassis for larger drivers, the frame is constructed of all 1.25" tubing of varying wall thickness and alloys. The Margay Brava is the most winning chassis in WKA Heavyweight classes for the last seven years running!

**Brava 1.9L "Limo" Kart, Rolling Chassis**

Part No. 9600-1.9L ..... \$3,795.00

**1.9L Kart with 125cc Leopard Senior Engine Package**

Part No. 9601-1.9L-Leopard Sr ..... \$5,499.00

*Popular with larger drivers in the TaG Series, package includes the IAME Leopard 125cc water-cooled 2-cycle engine with electric start, battery, clutch, and all other accessories.*
