

Bell Helmets

The quality and protection offered by Bell Helmets has been legendary for decades. Helmets come and go, but Bell continues to inspire loyalty like no other brand.

All Bell Helmets stocked are SA2005 rated and feature a CarbonX liner for fire protection.

SAFETY

The **Dominator** is a lightweight helmet that delivers exceptional aerodynamic stability at very high speeds. An integrated front chin spoiler and a rear "duck bill" wicker significantly reduce helmet lift. Trip Strips designed into the sides and top of the shell combat wind buffeting. The Dominator comes with a fleece lined helmet bag. Available in white only. Specify size: 7 1/8 through 7 3/4.

Bell Dominator..... Part No. 2319-Size-White.. \$799.00

The **M3** offers top-of-the-line performance for all types of auto racing. Features a lightweight Kevlar® shell with an adjustable screened venting system and a very narrow eyeport (drivers with glasses may need to consider a different model). Available in white only. Specify size: 6 3/4 through 7 3/4.

Bell M3 Pro Kevlar®.....Part No. 2241-Size\$559.00

The **BR-1** features an extra large eyeport for increased upward visibility. The innovative full venturi ventilation system is incorporated into the chin bar, forehead, and top vent to draw outside airflow through the helmet for maximum cooling without blowing dust and debris in the driver's face. Available in black or white. Specify size: Extra Small, Small, Medium, Large or Extra Large.

Bell BR-1 Part No. 2303-Size-Color .. \$399.00

The **M4** replaces the M2 but still features the same extra-large eyeport favored by drivers who wear glasses. Adjustable vents help to minimize fogging. Available in black or white. Specify size: Extra Small, Small, Medium, Large, Extra Large or Extra Extra Large.

Bell M4..... Part No. 2392-Size-Color ...\$379.00

The **Sport** is our least expensive SA2005 rated full-face Bell helmet. It features the same narrow eyeport and adjustable forehead vents which made previous versions of the Sport a top seller. Available in black or white. Specify size: Extra Small, Small, Medium, Large or Extra Large.

Bell Sport..... Part No. 2361-Size-Color....\$259.99

The **S2R** features both a chin bar and a visor to combine the protection of a full face helmet with the feel of an open face model. The S2R is designed for closed cockpit racing. It will not accept face shields. Available in white only. Specify size: Small, Medium, Large or Extra Large.

Bell S2R Part No. 2393-Size-White.. \$349.00

For those who prefer an open face helmet, the **Sport Mag** features a visor with anti-glare strip. This helmet is not designed to accept a face shield. Available in black or white. Specify size: Small, Medium, Large or Extra Large.

Bell Sport Mag Part No. 2308-Size-Color ...\$199.99

Helmet Size	X-Small		Small	Medium		Large		X-Large	XX-Large		

Use this chart for SA2005 Bell Helmets ONLY!

A general note on helmet fit: Helmets should fit as snug as possible without causing discomfort. Measure head circumference around the largest part of the head approximately one inch above the eyebrows and just above the ears. If a single or double layer Nomex® hood will be worn with the helmet, it should be worn when measuring head circumference. If a hood is not available, add about 1/4 inch to the circumference measurement for a single layer hood and 1/2 inch for a double layer hood.

Shock Doctor Power Dry Helmet Bags

Shock Doctor Power Dry Helmet Bag
Part No. SD-200
Shown with Power Dry Blower
Part No. SD-001 (sold separately)

No more putting on a sweaty helmet! The **Shock Doctor Power Dry Helmet Bags** connect to the Shock Doctor Power Dry Blower (sold separately) to circulate heated, ozonated air through your helmet to dry and deodorize the interior. Simply connect the blower, plug it in, and turn on the timer. In a few hours your helmet is dry and ready for use. Power Dry bags are available to fit a helmet only or a helmet with a HANS® Device. Both styles feature a soft interior lining, a padded carry handle, and clips to attach to the Racer Backpack (sold separately) to keep all of your gear together and organized. Black with grey trim.

Shock Doctor Power Dry Helmet Bag..... Part No. SD-200..... \$99.99

Shock Doctor Power Dry HANS® Bag Part No. SD-201 \$129.99

The **Shock Doctor Power Dry Blower** is the heart of the Power Dry system. The compact, portable unit connects to either helmet bag above or to the Shock Doctor Power Dry Gear Bags sold on Page 15 to dry and deodorize your gear. 120VAC, 60Hz, 200W blower features an automatic timer as well as independent controls for ozone and heat.

Shock Doctor Power Dry Blower Part No. SD-001..... \$99.99

The **Racer Backpack** features clips to attach either Power Dry Helmet Bag above to keep your gear together but still easy to handle. Huge 2000 cubic inch capacity is divided into 12 separate compartments, including many small pockets for items that are easily lost but demand immediate access like keys, logbook, or glasses. Includes a removable zippered folio for business essentials. Black and grey with gold logo.
