

Neck Supports

SAFETY

Simpson Neck Collar Acts like a shock absorber for the head and neck, reducing fatigue. 360° round style, as required by many sanctioning organizations. Velcro® closure for snug, adjustable fit. Foam core can be shaved down to further customize fit. Soft knit Nomex® cover removes for cleaning. Meets SFI 3.3 spec. Available in black, blue or red. One size fits all.

Simpson Neck Collar Part No. 2120-Color \$39.99

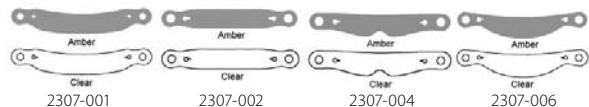

OMP Neck Collars Anatomically correct neck collars are made of a high density foam rubber core covered with either soft knitted, fire retardant Nomex® (for auto racing) or durable, non-fire retardant Cordura® (for karting). Contoured design fills in the space at the base of your neck between the shoulder line and the bottom of the collar. Very safe and comfortable. Available in black, blue or red. One size fits all.

OMP Neck Collar, Nomex® for auto racing Part No. 2123-Color \$109.00
 OMP Neck Collar, Cordura® for karting Part No. 9307-Color \$99.00

Helmet Accessories

Speedstack7™ Laminated Tear-off System

The **Speedstack7™ Laminated Tear-off System** is simplicity itself! It mounts seven layers at a time and is clearer than anything else you have ever tried! Seven layers laminated together equal the visibility of one conventional tear-off -- stackable up to 35 layers. No dust, fog, or water between layers; installs as one piece. Includes 5 sets of 7 laminations for a total of 35 tearoffs. Available for **Simpson, Bell and Pyrotec** helmet shields; choose your application and post spacing, and specify Clear, Smoke, or Amber tint.

Speedstack7™ Tear-offs for Bell & Pyrotec (12³/₈") . Part No. 2307-001-Color \$26.99
 Speedstack7™ for Simpson Voyager (11.5") Part No. 2307-002-Color \$26.99
 Speedstack7™ for Bandit, RX (11.5" w/ notched nose) Part No. 2307-004-Color \$26.99
 Speedstack7™ for Simpson Shark, Vudo (12.75") Part No. 2307-006-Color \$26.99

Fog City Anti-Fog Overlays

Install a self-adhesive **Fog City Pro Shield** anti-fog overlay on the inside of your helmet shield to prevent condensation. Unlike chemical treatments, the overlay will not wash off. Available for **Simpson, Bell, Pyrotec, OMP, Bieffe and Stand 21** helmet shields.

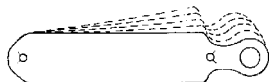

Fog City Overlays for Simpson Voyager, Super Voyager, Bieffe and Stand 21 helmets Part No. 2233-1.....\$17.99
 Fog City Overlays for Simpson Shark, Super Shark, Bell, Pyrotec and OMP helmets Part No. 2233-2.....\$17.99
 Fog City Overlays for Simpson Bandit, Super Bandit and RX helmets Part No. 2233-3.....\$17.99

Self-Adhesive Shield Protector for Bell and Pyrotec Helmets

Here's a great way to extend the life of your **Bell** and **Pyrotec** helmet face shields. Simply attach the self-adhesive laminate to the outside of a clean shield. The "Perimeter Seal" adhesive around the edge seals out dust to protect against light scratches from your tear-offs that form over time. When it gets worn, just peel off the top layer. Each laminate has three layers and protects one shield. Put one on each of your face shields today!

Self-Adhesive Shield Protector Part No. 2311 \$26.99

Tear-offs for Bell and Pyrotec Helmets

These quality tear-offs are 5 mils thick (0.005") and fit shields with 12³/₈" post spacing, including **Bell** and **Pyrotec** helmet shields. Sold in a 5 pack.

Bell Tear-offs, 5 pack Part No. 2251 \$3.49

Hyper Optiks Shield Insert

These shield inserts offer a solution for day to night racing - the insert changes from light green to cobalt blue in less than four seconds when exposed to intense sunlight. Extremely tight tolerance ensures no distortion of vision, and the insert is also anti-fog treated. The universal design fits most **Simpson, Bell, OMP, Bieffe and Stand 21** full faced helmets. Measures 3.75" x 11.5".

Hyper Optiks Shield Insert Part No. 2309 \$39.99

Adjustable Tear-off Posts

These adjustable posts can be used to fit tear-off strips to face shields not originally designed for them. Package of two posts and two screws is enough for one shield.

Adjustable Tear-off Posts Part No. 2253..... \$4.29
