Shock Doctor Mouthguard

Even when the head is protected inside a helmet, the jaws can still crash together hard enough to damage teeth or even cause a concussion. The patented **Shock Doctor Gravity 2 Mouthguard** is specifically designed for racing drivers to fight concussion, TMJ disorder, oral lacerations (biting the cheek or tongue), and tooth injuries. Other mouthguards cover the upper teeth, making speech difficult or impossible. The Gravity 2 covers only the lower teeth, allowing the tongue to contact the roof of the mouth and the front teeth for clearer speech. Your crew may not even know you're wearing it!

- Shock Doctor Gravity 2 Mouthguard Part No. SD-050..... \$19.99

The **Shock Doctor Mouthguard Case** has a carabiner clip, a carbon fiber-look top panel, and an antimicrobial interior treatment to keep your mouthguard clean and protected between uses. Fits any brand or style mouthguard.

- Shock Doctor Hard Case for Mouthguard Part No. SD-075..... \$5.99
