

FIA Approved 6-point Camlock Driver Restraint Systems

SAFETY

OMP 804 Leggera Sedan Harness

The Leggera mounts the buckle on the sub straps instead of the lap belt so you won't sit on the buckle! The 3" lap belt, 3" shoulder belts, and 2" sub straps all have snap-in end plates installed with 3-bar sliders for easy conversion to wrap mount. The lap belt has pull-up adjusters. Lightened adjusters, 33% lighter webbing and a lighter buckle bring the total weight to less than 5 pounds. FIA approved. Black, blue, or red. Made in Italy.

OMP Leggera Sedan Harness
Part No. 2379-201-Color..... \$339.00

OMP 404E Formula Car Harness

This 6-point camlock formula car harness features loop & D-ring sub straps. The 2" lap belt and 3" shoulder belts have 8mm (5/16") bolt-in end plates sewn in. The 2" sub straps have 8mm bolt-in end plates installed with sliders for easy conversion to wrap mount. Lap belt has pull-down adjusters. FIA approved. Black, blue, or red. Made in Italy.

OMP Formula Car Harness
Part No. 2376-Color..... \$329.00

Willans Club 6 Formula Car Harness

This 6-point camlock formula car harness features loop and D-ring sub straps. The 3" lap belt has no bulky quick-adjust sliders. Length is adjusted when the belt is installed. The 3" shoulder straps have 8mm (5/16") bolt-in end plates sewn in. The lap belt and 2" sub straps each use two 8mm bolt-in end plates to sandwich the belts in place. FIA approved. Black, blue, or red. Made in the UK.

Willans Club 6 Single Seater Harness
Part No. 2378-Color.....\$329.99

Willans Club Vee 6 Sedan Harness

The Club Vee 6 is designed for sedans and sports cars. The 3" lap belt features pull-up adjusters and snap-in end plates sewn in. The 3" shoulder straps and 2" sub straps have snap-in end plates installed with sliders. The Vee refers to the sub straps, which share a single tab that plugs into the camlock buckle. FIA approved. Black, Blue, or Red. Made in the UK.

Willans Club Vee 6 Sedan Harness
Part No. 2379-004-Color.....\$329.99

Willans Club 6 x 6 Sedan Harness

The Club 6 x 6 harness is designed for sedans, but it has loop and D-ring sub straps like a formula car harness. The 3" lap belt has pull-up adjusters and snap-in end plates sewn in. The 3" shoulder straps and 2" sub straps have snap-in end plates installed with 3-bar sliders for easy conversion to wrap-around mount. FIA approved. Black, blue, or red. Made in the UK.

Willans Club 6 x 6 Sedan Harness
Part No. 2379-002-Color.....\$379.99

Willans Silverstone 6 Looped Harness

The Silverstone 6 Looped harness is designed for formula cars with cross-bolt mounts for the shoulder harness. The 3" shoulder straps feature lightweight adjusters and a sewn loop which allows a mounting bolt to be slipped through. Otherwise identical to the Club 6 harness above. FIA approved. Black, blue, or red. Made in the UK.

Willans Silverstone 6 Looped Harness
Part No. 2379-003-Color..... \$429.99

The HANS® harnesses shown below have special narrowed (2") shoulder straps for use with HANS® Devices. They are not legal for use without a HANS® Device.

OMP 806 HANS® Sedan Harness

This 6-point camlock harness is designed for sedans. The 3" shoulder straps narrow to 2" over the HANS® for optimum placement. All other features and specifications are identical to the OMP Leggera harness above.

FIA approved. Black, blue, or red. Made in Italy.
OMP HANS® Sedan Harness
Part No. 2379-206-Color..... \$339.00

OMP 807 HANS® Formula Car Harness

This harness is designed for formula cars. The shoulder belts and 2" loop & D-ring sub straps each have 8mm bolt-in end plates installed with sliders. The 3" lap belt has pull-up adjusters and 8mm (5/16") bolt-in endplates sewn in. FIA approved. Black, blue, or red. Made in Italy.

OMP HANS® Formula Car Harness
Part No. 2379-205-Color..... \$339.00

Willans Silverstone 6 HANS® Harness

The Silverstone 6 HANS® is designed for formula cars. The 3" shoulder straps narrow to 2" over the HANS® and feature special lightweight aluminum adjusters. All other features and specifications are identical to the Club 6 harness above. FIA approved. Black, blue, or red. Made in the UK.

Willans Silverstone 6 HANS® Harness
Part No. 2379-001-Color.....\$479.99

Driver Restraint Accessories

Simpson Arm Restraints are used in open cockpit cars to keep a driver's arms inside the vehicle during a roll-over. A loop at the end of the strap is captured when the lap belt is fastened so that the arms are free as soon as the belt buckle is released. The **Sprint Car Restraints** are designed for the exposed design of a sprint car cockpit and are therefore more restrictive. They do not allow enough movement for hand signals. Both styles are available in black, blue or red.

Simpson Arm Restraints, Pair..... Part No. 2322-Color..... \$37.99
Simpson Sprint Car Arm Restraints, Pair (not pictured)..... Part No. 2323-Color..... \$41.99

Harness Sleeves are padded to cushion the force exerted by the shoulder harness. These pads utilize a wrap-around, Velcro® secured attachment that allows quick and easy installation or removal. Sold in pairs.

Simpson Nomex® Harness Sleeves, Pair, specify black, blue, or red..... Part No. 2129-Color..... \$39.99
Willans Brushed Nylon Harness Sleeves, Pair, specify black, blue, or red..... Part No. 2379-025-3-Color..... \$32.99

Simpson Helmet Restraint Strap Helps prevent driver fatigue in circle track racing by taking strain off the neck muscles. An adjustable loop goes around the driver's arm at the shoulder and fastens to a D-ring on the helmet. Available in black, blue or red.

Simpson Helmet Restraint Strap..... Part No. 2321-Color..... \$13.99
Note: This strap is not intended to protect against any injury during an impact.
