OMP TRS Racing Seat This seat features a steel tube frame with both side mount points (for use with Part No. 3456 or 3459 brackets) and bottom mount points (for use with Part No. 3458 brackets) for mounting flexibility. The side bolsters are higher than the Eco seat above, and 5 harness slots allow the use of 5- and 6-point racing harnesses. Cloth upholstery available in Black, Blue, or Red.

OMP TRS Tube Frame Seat
Part No. 3454-741-Color \$369.00

Please Note: Due to their large size, a Large Package Surcharge will be charged for each seat shipped. OMP Racing seats ship from our Florida warehouse.

Simpson Child Safety Seat

The **Simpson Child Safety Seat** meets or exceeds all applicable U.S. motor vehicle safety standards. The seat can be used with the included 5-point harness system (20-40 lbs.) or with your vehicle's combination lap/shoulder belt (30-100 lbs.) as a booster seat. Features extra thick padding and a quick-adjust harness. The high back style lends support for child's back and head. (**Note:** This seat is designed to be installed facing forward only. The child must be old enough to support his or her head.) The seat features black machine washable upholstery, with gray accents and red and white Simpson logos.

Simpson Child Safety Seat
Part No. CARSEAT\$149.99

Side-Mount Brackets

OMP Aluminum Seat Brackets with Dampers These unique aluminum brackets feature urethane dampers at each attachment point to help reduce vibration and compressive stress (and associated injuries) on the spinal column while driving. Height adjustable, with a hard anodized black finish.

OMP Brackets w/DampersPart No. 3456 ... \$540.00

OMP Side-Mount Seat Brackets These brackets fit most brands of racing seats with side mounting points (most composite seats). Several height positions front and back allow you to choose different seat heights and angles. Black anodized aluminum.

OMP Side Seat BracketsPart No. 3459\$150.00

Bottom-Mount Brackets

OMP Bottom-Mount Seat Bracket Kit This kit includes 2 aluminum base rails and 4 cast aluminum vertical pedestals. Each pedestal has 4 holes for height adjustment. The pedestals may have to be cut down to use the lowest positions. Not FIA homologated.

OMP Bottom-Mount Kit . . . Part No. 3458\$95.00

OMP Sliding Seat Rails Kit for Bottom-Mount Seats These rails mount between the seat and the seat mounting brackets (sold separately) to allow fore-and-aft movement. Fits bottom-mount seats only. Not FIA homologated.

OMP Sliding Rail Kit Part No. OMP-HC/665. .\$.75.00

Seat Back Brace

Adjustable Seat Back Brace This strong steel brace is designed to bolt to the back of your seat and clamp to the roll bar. No welding is required. The brace can be set to any length from 2 1/2" up to 15", making it ideal for multi-driver cars. It can be used with just about any seat at almost any angle. Using two braces can provide added safety in side impacts.

Adjustable Seat Back Brace Part No. 5176\$89.99
