

FE-36™ and Halon (Gas) Fire Suppression Systems

FireBottle Fire Suppression Systems (SFI Approved)

FireBottle Fire Suppression Systems have a proven track record of performance and reliability. Every FireBottle system undergoes 17 quality control inspections before it is shipped. The FireBottle systems that we stock use **SFI-approved** DuPont™ FE-36™ as the fire fighting agent. The liquid/vapor discharge of FE-36™ flows around obstructions to reach the fire and reduces the possibility of flashback.

FIRE SYSTEMS

FireBottle Pull Systems with 4 foot pull cable Complete systems include a lightweight aluminum cylinder with anodized actuating head. These systems also include a 4 foot pull cable for remote activation, 8 feet of aluminum tubing, bottle mounting bracket with clamps, tube fittings, and 2 nozzles (3 nozzles with the 10 lb. system). SFI approved and SCCA legal in all cars. ***See note concerning shipment of hazardous materials.**

- FireBottle 5 lb. FE-36™ Pull System**.....Part No. 2035-003\$409.99
Aluminum bottle measures 16" long (including head) by 4.25" diameter.
- FireBottle 10 lb. FE-36™ Pull System**.....Part No. 2035-007\$589.00
Aluminum bottle measures 18.25" long (including head) by 5.25" diameter.

FireBottle Push Systems with push-button actuator on head Complete systems include a lightweight aluminum cylinder with a push button actuator on the top of the actuating head. These systems also include 8 feet of aluminum tubing, bottle mounting bracket with clamps, tube fittings, and 2 nozzles. SFI approved and SCCA legal in all cars.

- *See note concerning shipment of hazardous materials.**
- FireBottle 5 lb. FE-36™ Push-button System**.....Part No. 2035-004\$399.99
Aluminum bottle measures 17.38" long (including head) by 4.25" diameter.
 - FireBottle 10 lb. FE-36™ Push-button System**Part No. 2035-009\$579.00
Aluminum bottle measures 20.25" long (including head) by 5.25" diameter.

Replacement Bottles for above Push or Pull Systems

- 5 lb. FE-36™ Manual Replacement Bottle only**Part No. 2035-006\$289.99
- 10 lb. FE-36™ Manual Replacement Bottle only**Part No. 2035-012\$469.99

FireBottle Electrical Fire Systems Complete systems include cylinder and actuator head, electrical firing unit, 8 feet of aluminum tubing, bracket, connectors, and two nozzles. SFI approved and SCCA legal in all cars. ***See note concerning shipment of hazardous materials.**

- FireBottle 5 lb. FE-36™ Electric System**Part No. 2035-010\$599.00
Aluminum bottle measures 15.5" long (including head) by 4.25" diameter.
- FireBottle 10 lb. FE-36™ Electric System**Part No. 2035-022\$789.00
Aluminum bottle measures 17.5" long (including head) by 5.25" diameter

Replacement bottles for above Electric Systems

- 5 lb. FE-36™ Electric Replacement Bottle only**Part No. 2035-026\$379.99
- 10 lb. FE-36™ Electric Replacement Bottle only**Part No. 2035-030\$569.00

FireBottle Halon Bottles Halon is a liquid under pressure and releases as a gas. Halon is no longer SFI-approved and is currently only SCCA legal in cars registered prior to January 1, 2009. Older cars may still use Halon, AFFF, or an SFI- or FIA-approved system. ***See note concerning shipment of hazardous materials.**

- FireBottle 5 lb. Halon Pull System**.....Part No. 2003.....\$409.99
 - FireBottle 10 lb. Halon Pull System**.....Part No. 2007.....\$589.00
 - 5 lb. Halon Manual Replacement Bottle only**Part No. 2006.....\$289.99
 - 10 lb. Halon Manual Replacement Bottle only**Part No. 2012.....\$469.99
- FireBottle FE-36™ systems are 100% interchangeable with their Halon systems. If you have a FireBottle Halon system, you can convert to FE-36™ just by adding the bottle.

*** NOTE:** All pressurized fire bottles are considered HAZARDOUS by UPS and other shippers. A HAZARDOUS shipping charge will apply. Hazardous items can be shipped to U.S. customers only.

Automatic / Manual FE-36™ Systems

These FE-36™ fire suppression systems are ideal for your trailer, shop, and race car! The system can be activated manually by a pull cable or automatically with the help of a 155 degree thermal head. When the temperature in the cockpit exceeds 155°F, the system automatically discharges. Systems include a charged 5 or 10 pound aluminum cylinder, mounting bracket, two discharge nozzles, aluminum tubing, one manual pull cable, and a thermal head that connects to the bottle by a 3 foot long flame-resistant, flexible, braided stainless steel line. Requires no electrical power. ***See note concerning shipment of hazardous materials.**

- Automatic System, 5 lb. . . Part No. 2035-032.....\$479.99**
Bottle measures 14.75" long by 4.25" diameter.
- Automatic System, 10 lb. . Part No. 2035-033.....\$669.00**
Bottle measures 18.5" long by 5.25" diameter

Handheld Halon Extinguisher with Bracket

For race classes that allow a portable extinguisher rather than an integrated system, this quality unit is hard to beat. It features an all-metal nozzle and includes an SCCA approved all-metal vehicle mounting bracket. This economical extinguisher is perfect for keeping in the pits, garage, trailer, home, car or boat. ***See note concerning shipment of hazardous materials.**

- 2.5 lb. Halon 1211 Handheld Fire Extinguisher**
Part No. 2081.....\$119.99
Includes metal bracket (Rated 5-B-C, USCG B:C Size I)

Pit Pal Fire Extinguisher Cabinet

This high-quality cabinet helps keep your shop or trailer organized and your equipment stored safely. Holds fire extinguishers up to 5.75" x 4.5" securely to the wall of your trailer or shop. The cabinet measures 8" D x 10" H x 5" W overall.

- Pit Pal Fire Extinguisher Wall Cabinet**
Part No. PP352\$44.99

See pages 121-123 for our complete selection of Pit Pal products.

FE-36™

FE-36™ is DuPont's™ clean replacement for Halon. FE-36™ has zero ozone depletion potential and performs comparably to Halon 1211 with lower toxicity. It is stored as a liquid under pressure and releases as a gas, chemically disrupting the combustion process and cooling the area to prevent reignition. It leaves no residue.

FireBottle Accessories and Replacement Components

- Push-Button Actuating Head**.....Part No. 2049.....\$42.99
- Actuating Head for Pull Cable Systems**.....Part No. 2041.....\$51.49
- 4 foot Remote Actuating Cable (pull type)**.....Part No. 2044.....\$33.49
- 8 foot Remote Actuating Cable (pull type)**.....Part No. 2047.....\$48.99
- Power Pack for Electrical Systems**.....Part No. 2442-DIN.....\$94.99
- Mounting Bracket for 5 lb. FireBottle with clamps**.....Part No. 2053.....\$23.99
- FireBottle Replacement Nozzle (requires adapter)**.....Part No. 2042.....\$12.99
- Adapter for above nozzle**.....Part No. 2063.....\$5.99
- Discharge Adapter (connects bottle head to 1/4" tubing)**.....Part No. 2061.....\$5.99
- Brass Tee for 1/4 inch tubing**.....Part No. 2064.....\$5.99
- 1/4 inch Aluminum Discharge Tubing, 8 foot coil**.....Part No. 2078-08.....\$9.99

"Remove Before Flight" Streamer

SCCA recommends attaching a "Remove Before Flight" streamer to your fire bottle safety pin as a reminder to arm the system before going on track. Our bright red nylon 8 inch x 1 inch streamer is perfect for fire bottle pins, suspension stops, or anything else that must be removed before racing. Makes a fun key ring, too. Includes reinforcing grommet and split ring for easy attachment.

- Remove Before Flight Streamer, 8 inch**Part No. 1100-RBF08.....\$6.99
