

Robic® Digital Stopwatches

Robic

Robic® has been making the world's finest handheld timers and stopwatches since 1986. Millions around the globe have recognized the quality, reliability, and value of Robic® timers, making them the most well-known and most requested stopwatches in the world. Whatever your requirements, there is a Robic® timer for you. All Robic® handheld timers (except HW30) now carry a **10-year** factory warranty. Handheld models include a 22" lanyard with an adjustable keeper.

SC-577 Wristwatch Stopwatch

The **SC-577 Wristwatch Stopwatch** features a 300 lap memory, with EL backlighting to illuminate the entire display. Features user selectable running lap or split time, storage for 30 personal training sessions, and a 6 mode count down timer which is ideal for road rallying. Shows fastest, slowest, and average lap times. The watch is water resistant to 30 meters and includes a long life lithium battery. Black with red trim. One year factory warranty.

SC-577 Wristwatch Stopwatch..... Part No. 5058\$37.99

SC-505W Five Memory Timer

This entry-level stopwatch boasts the same accuracy as much more expensive units (accurate to .001 seconds over 24 hours). Displays either split (cumulative) or lap times with a lap counter up to 99. Features a 5 lap memory which can be displayed while the timer is running. Two mode buttons, one "start/stop" and one "lap/reset" make operation easy. Your part-time crew won't have to take classes to operate this watch! Average battery life is 5 years. Now water resistant to 30 meters. **Available in black, blue, green, red, orange, purple and yellow.**

Hand held SC-505W.....Part No. 5035-Color....\$26.99

SC-888 3 Car Timer

This top-of-the-line **3 Car Timer** can time one, two or three cars starting separately or simultaneously. Backlit display shows either lap or split times with a lap counter to 999 for each car. Memory can recall 150 laps for each car for a total of 450 laps. Fastest, slowest, and average lap times can also be quickly displayed. Speed can be shown in MPH or KPH. Also features three countdown timers which can be used together or separately. Average battery life is 3 years.

Hand held SC-888..... Part No. 5037\$74.99

HW30 Heat and Humidity Stopwatch

This multifunction instrument combines essential stopwatch functions with critical summer weather functions! Displays either lap time or split time with a lap counter up to 99, and stores 30 laps in memory. Weather functions include heat, humidity, and heat index, as well as a heat index alarm. Timer accurate to .01 second over 24 hours. Dark olive green. One year factory warranty.

HW30 Heat & Humidity Stopwatch ..Part No. 5057.....\$49.99

SC-554W 30 Memory Speed Timer

The **30 Memory Speed Timer** has the ideal chronograph, speed and memory functions for motor racing. Displays lap time, split time, or both in one window with a lap counter up to 999. Speed is displayed in MPH or KPH. Track length entry allows precision to 1/1000 mile or 1 meter. Memory function can display fastest and average lap times on demand, or scroll through lap times in ascending or descending order. Accurate to .01 second over 24 hours. Average battery life is 4 years. Now water resistant to 30 meters!

Hand held SC-554W.....Part No. 5031.....\$38.99

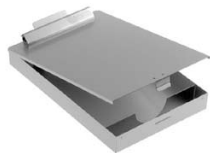

SC-848W 300 Memory Speed Timer

Our most powerful and accurate timer! Ideal for endurance racing. Backlit display shows lap time, split time, or both in one window with a lap counter up to 999. Speed displays in MPH or KPH. Recalls 300 laps and speeds with fastest, slowest, and averages quickly accessible while the timer is running. Accurate to .01 second over 100 hours. Special breakaway lanyard protects the wearer in the event of the timer getting caught on the car during a pit stop. Average battery life is 5 years. Water resistant to 30 meters.

Timing and Record Keeping

Aluminum Clipboard with Storage Compartment

The cover of this handy clipboard lifts up to expose a 1.5" deep storage compartment. The storage area is divided into a section for 8.5" x 12" papers and a section for pens and pencils. Lightweight aluminum construction. Measures 13 3/4" x 9" x 1 5/8" thick (2 3/4" overall including clip).

Clipboard with Storage Compartment

Part No. 5014\$29.99

Lap Timing Sheets make it easy to keep detailed records of lap times. Sheets are printed front and back. The front of each sheet has space for lap times for three cars for 50 laps. The back has 112 spaces for practice times arranged into 14 "Car" rows and 8 "Lap" columns. Each set includes 2 pads of 50 sheets per pad. Three-hole punched for storage in our Racing Data Notebook (sold separately).

Lap Timing Sheets, 2 Pads.....Part No. LA22525.....\$12.99

RACEceiver Driver Information System

More and more sanctioning bodies are using the RACEceiver 1600 Elite one-way radio system as a quick and effective way for Race Control to broadcast critical instructions to drivers. Use of the RACEceiver system has been shown to reduce the chance of secondary incidents, making things safer for workers as well as for drivers. Even if your track or sanctioning body does not require it, you can use the RACEceiver to monitor the track

frequency and know what's going on before you get there.

This is not a scanner or two-way radio. The 1600 Elite monitors one of 1600 pre-programmed frequencies (UHF 450-470 MHz) with no scanning or transmitting. Operates on one AAA battery for 20-24 hours. The LP1600 Driver Kit includes a bright yellow 1600 Elite RACEceiver, battery, holster, and a set of foam earpieces which can be used as the basis for custom-molded earpieces.

RACEceiver LP1600 Elite Driver KitPart No. 5072-001\$192.99

Reverse Splitter CordPart No. 5072-010.....\$21.99

Allows you to listen to the RACEceiver and your two-way radio at the same time.

Replacement Earpieces.....Part No. 5072-011.....\$87.99

Replacement Earpiece Foam Only, set of 2.....Part No. 5072-012.....\$3.29

Roll Bar Mount Box.....Part No. 5072-025.....\$10.99

Lightweight, sturdy box makes it easy to mount your RACEceiver to any roll cage tube.

Racing Data Notebook

"Record keeping is totally ignored by 90% of all racers. It is **not** ignored by the 10% of racers who win 90% of the races." — Carroll Smith, *Prepare to Win*

Accurate records of every race weekend and test day are a valuable asset for any driver or race team. Our **Racing Data Notebook** will provide a clear, permanent record of every adjustment made to the car and every lap time recorded. **Lap timing sheets** have space for up to 6 sessions of 20 laps each (or 3 sessions of 40 laps each), adjustment and handling notes, and a pre-race checklist. **Data sheets** have sections on engine, tire data, and chassis settings as well as room for general notes. The Deluxe Notebook contains 30 lap timing sheets and 30 vehicle data sheets printed on heavy index card stock for durability and longevity.

Racing Data Notebook, Deluxe Edition.....Part No. 5205-01.....\$14.99

Includes 30 sets of data and timing sheets (total of 60 sheets)

Refill Packs contain 30 lap timing and 30 vehicle data sheets printed on heavy index card stock. They are unbound, 3-hole punched, and arranged with the lap sheets and data sheets in an alternating sequence. Will also fit the storage clipboard at left.

Refill Pack, printed on heavy index card stock.....Part No. 5205-Refill.....\$9.99

Contains 30 sets of vehicle data sheets and lap timing sheets (total of 60 sheets).

Radar Speed Measuring

The **Velocity Handheld Radar Gun** offers an excellent combination of accuracy, ease of use, and value, outperforming units costing hundreds more. Measures speeds up to 200mph as accurately as +/- 1 mph. The compact design and light weight (only 13 oz) make it easy to hold and use for any race, qualifying, or practice session. Displays speed in miles per hour. Made in China. Requires 2 "C" batteries, not included.
