

Jones Tach Cables

We stock drive cables for both Smith and Jones tachs. Smith tachs and right-angle engine gearboxes use a special thread which is about 1/2" diameter. Jones tachs use a heavy-duty SAE drive with a 7/8-18 thread as do most tach drive distributors (Stewart-Warner tachs have a 3/8-18 input). **Note: Our Part No. 1382-xx cables with Smith inputs and outputs no longer include the blade type drive dog on the input end.** You must reuse the drive dog from your old cable, or order the drive dog separately (Part No. 1383). (Stewart-Warner drive tips will not work with these cables.)

- Smith's input, Jones output, 66 inch length..... Part No. 1381-66..... \$79.99
- Smith's input, Jones output, 84 inch length..... Part No. 1381-84..... \$92.99
- Smith's input, Jones output, 96 inch length..... Part No. 1381-96..... \$96.99
- Smith's input, Jones output, 108 inch length..... Part No. 1381-108..... \$94.99
- Smith's input, Smith's output, 72 inch length..... Part No. 1382-72..... \$74.99
- Smith's input, Smith's output, 84 inch length..... Part No. 1382-84..... \$74.99
- Smith's input, Smith's output, 96 inch length..... Part No. 1382-96..... \$74.99
- Smith's input, Smith's output, 108 inch length..... Part No. 1382-108..... \$79.99
- Drive Dog (for Smith style input)..... Part No. 1383..... \$9.99
No longer furnished with Part No. 1382 cables.
- .104" sq. drive distributor drive input, Jones output, 84"..... Part No. 1384-84..... \$79.99
- .187 tang, 7/8"-18 input, Jones output, 66 inch..... Part No. 1385-66..... \$81.99
- .187 tang, 7/8"-18 input, Jones output, 84 inch..... Part No. 1385-84..... \$89.99
- .187 tang, 7/8"-18 input, Jones output, 108 inch..... Part No. 1385-108..... \$92.99
- 90° Cable Adapter (mounts to back of Jones Tach)..... Part No. 1387..... \$119.99

GAUGES

Longacre Gauge Panels

Longacre Gauge Panels feature Auto Meter Liquid-Filled mechanical gauges or Auto Meter Ultra-Lite mechanical gauges installed in an aluminum panel and pre-wired with Gaugelites™ Warning Lites. Wiring is color coded for easy installation. Graphics on the aluminum panel may vary.

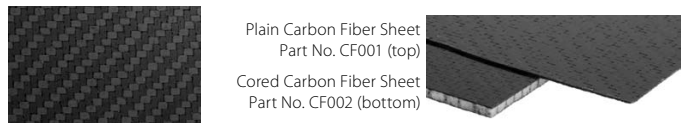

Part No. 4602
3 Gauge Panel
with Auto Meter
Liquid-Filled Gauges:
Oil Pressure,
Water Temperature,
and Fuel Pressure

- Gauge Panels with Auto Meter **Ultra-Lite** mechanical gauges
- 3 Gauge Panel: Oil Press., Water Temp., Fuel Pressure..... Part No. 4622..... \$314.99
- 4 Gauge Panel: OP, WT, OT, FP..... Part No. 4623..... \$429.99
- Gauge Panels with Auto Meter **Liquid-Filled** mechanical gauges (shown)
- 2 Gauge Panel: Oil Pressure, Water Temperature..... Part No. 4600..... \$229.99
- 3 Gauge Panel: Oil Press., Water Temp., Fuel Pressure..... Part No. 4602..... \$324.99
- Fuel Pressure Gauge Isolator Kit..... Part No. AM5282..... \$119.99
Keeps pressurized fuel out of the cockpit. Details on page 47.

- Roll Bar Panel Mounting Brackets** These clamp-on brackets mount the above gauge panels easily, with no drilling required. Sold in pairs.
- Roll Bar Panel Mounting Brackets, for 1 1/2" roll bar..... Part No. 22784..... \$39.99
- Roll Bar Panel Mounting Brackets, for 1 3/4" roll bar..... Part No. 22780..... \$39.99

Carbon Fiber Sheet

Pegasus is proud to carry the finest products in carbon fiber from the leading American manufacturer of composites for motorsports. These hand-laid sheets are the top choice of ALMS, Daytona Prototypes, F2000, BMW Motorsports, and other top teams and manufacturers. This is genuine carbon fiber, not plastic with a carbon fiber print. It is not intended as a cosmetic dress-up for show cars.

The **Plain Carbon Fiber Sheet** is a single layer of 2x2 carbon fiber weave with a smooth, glossy clear coat on one side. It is somewhat flexible, which makes it perfect for block-off plates, cockpit interior panels, small enclosures, and other applications which will not require it to carry any load.

- Plain Carbon Fiber Sheet, 12" x 18"..... Part No. CF001-12x18..... \$55.99
- Plain Carbon Fiber Sheet, 18" x 24"..... Part No. CF001-18x24..... \$111.99
- Plain Carbon Fiber Sheet, 24" x 36"..... Part No. CF001-24x36..... \$224.99

The **Cored Carbon Fiber Sheet** has a lightweight 1/8" thick honeycomb core which has been vacuum-bagged between two layers of 2x2 carbon fiber weave. It is very strong and rigid, which makes it a great choice for gauge panels, switch plates, wing end plates, or just about any non-structural application.

- Cored Carbon Fiber Sheet, 12" x 18"..... Part No. CF002-12x18..... \$85.99
- Cored Carbon Fiber Sheet, 18" x 24"..... Part No. CF002-18x24..... \$172.99
- Cored Carbon Fiber Sheet, 24" x 36"..... Part No. CF002-24x36..... \$344.99

SPA Brake Bias Gauge

Brake Bias Gauges take the guesswork out of brake bias adjustment. They can be used on any car equipped with a brake balance system. We offer both a panel-mount (Part No. DG205) brake bias gauge for permanent installation in the race car, and a hand-held version (Part No. DG2001) for use in the shop or pit lane. Both instruments have a digital LCD read-out of the front and rear brake pressure, the bias percentage front to rear, peak pressure recall, and sensor fault and low battery warnings. Includes all sensors, wiring harness, installation kit and instruction manual.

- Panel Mount Bias Gauge (mounts in 2 1/8" hole - includes brake line interface)
Part No. DG205..... \$499.00
- Hand-held Plug-in Gauge Kit for checking bias setting in the pits (not shown)
Part No. DG2001..... \$579.00
- Replacement Brake Bias Pressure Transducer Module only
Part No. PSU250B..... \$139.99

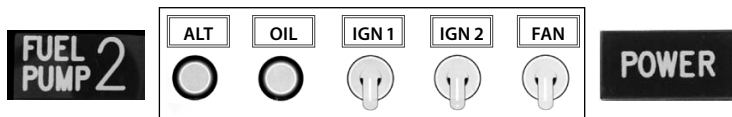

Panel Mount Bias Gauge with Sensors Part No. DG205

Detail of Brake Line Interface Module with Bleeder (two included with gauge)
Adapter fittings not included.
This item comes with 3/8"-24 flat face female ports only.
See pages 86 and 87 for the appropriate adapters and crush washers.

Dashbadge Switch Identification Plates

Switch Identification plates with red lettering identify switches on your dash quickly and clearly. Made from high-quality black plastic backed with reliable 3M adhesive for an easy-to-clean dash! Choose from the plates shown at right; each measures 1" wide by 1/2" tall.

- Dashbadge Switch Identification Plate, each..... Part No. 1100-Name..... \$4.29
